### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the claims address a method, apparatus, and computer program for estimating/removing scatter from an image by either modeling the affect of the angular incidence of the radiation in a scatter signal and deriving an estimate of the scatter signal from that, or estimating an asymmetrical scatter kernel based on the angle of incidence, the mean attenuation, and the distance traveled by the radiation. This feature is neither shown nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
